

C I R C U L A R -23/62

Instances of complaints of non delivery of saplings sold in auction are becoming numerous and this leads to quite a lot of mischief and complaints. To avoid this it is ordered that whenever it is proposed to sell saplings in auction, they should be brought outside the plantation, stacked and sold. Under no circumstances whatsoever saplings should be sold in plantations areas.

The Divisional Forest Officers and Conservators will please see that no more complaints are coming on this respect.

Receipt of this circular may be acknowledged.
