

No. C8- 10148/84/F.

Office of the Chief Engineer,
Buildings and Roads, Trivandrum,
Dated: 5-5-84.

TECHNICAL CIRCULAR No. 23/84/C

Sub: - Providing Electrification to Bridges instructions issued.

Ref:-

.....

It is felt that proper lightning on bridges having larger span is necessary to help pedestrian during night. Hence it is directed that necessary provision for electrification may also be included in the estimate for bridges having spans 30 M. and above. But actual electrification need be done only if the concerned Panchayat/Municipality agrees to pay the electricity charges and attend to the maintenance of the electrical installations and on such cases written agreement on Rs. 3/- stamp paper may be obtained from the Local Bodies before carrying out the electrification.

Sd/- Chief Engineer.
