

Copy of Circular No.9/73 on C1-8521/73 dated 13-3-1973 from the Chief Conservator of Forests, to all sub-offices etc.

Sub:- Extraction and disposal of rosewood – Procedure - regarding

During the conference held on 27-2-73 by the Hon: Minister for Finance and Forest at Ernakulam Collectorate with regard to extraction and disposal of Rosewood the following decisions were taken.

1. In the case of Export size Rosewood logs bark and sapwood need not be removed. Only a narrow ring of sapwood alone be removed from middle in order to facilitate measurements.
2. Action should be taken to see that the logs are registered and brought to depots as soon as they are felled and converted.
3. While converting felled trees of Rosewood extreme care should be taken to see that conversion yields logs most favoured by the market.

The above decisions should be strictly followed.
