

Copy of letter No.P5-40772/81 dated. 18-9-81 from Chief Conservator of Forests, to the  
Conservator of Forests, Kozhikode.

Sub :- Instruction of Mesopsis Omini an exotic tree species

Mesopsis ominii an exotic tree species introduced as a shade tree in the coffee plantation of Wayanad (with popular name MUSINI) is a producing tree species worth trial in high altitude (900-1200 above PSL). The wood of this species has been found to be suitable for packing for cases especially wooden crates, pent-top wooden cases light tool handles. Timber has also been found suitable for plywood. Trial plantation on a small scale may be undertaken in one of the softwood areas in the coming season. The species can be easily raised from seeds.
