

PROCEEDINGS OF THE CHIEF CONSERVATOR OF FORESTS

Sub:- Timber extraction from Kallada Valley area in Anchal Range.

Ref: CC2-18009/63 dated 5/12-5-64

ORDER ON C1-11432/64/TRIVANDRUM, DATED 17-7-64

The practice regarding publication of basic rates and asking the tenderers to quote uniform percentage rate of such basic rates was asked to be followed since in the case of tenders for which the destination is more than one depot, the lowest tender accepted may happen to be not the lowest on actual working due to variation in the quantities delivered at the Depots. This difficulty could be avoided if the tenderers are asked to quote a uniform percentage rate for all the basic rates together. In the case where the destination is only the depot there is no necessity to publish the basis rate as no such difficulty will arise.

As such it is hereby ordered to follow the procedure of publishing the basic rates and calling for the tenderers to quote a uniform percentage rate where there are more than one destination in a particular tender. When there is only one destination basic rates need not be revealed.

Sd/- Chief Conservator of Forests.

Copy to all the Conservators.

Endt. on F. Dis.15905/64(ML) dated 25-7-1964.

Copy to Kt, Ch, Tr and ML Stock file.
