

Government Circular No. 43959/EB4/62/Fin. dated 19-11-1962 from Finance Department to all heads of Departments.

.....
Sub: Travelling Allowance for journeys on transfer-clarification of

According to note 6 to rule 31 Part II K.S.R. Officers on transfer from one Station to another will be allowed the higher rates of mileage of all journeys irrespective of the distance traveled per day or the nature of the conveyance used except in the case of journeys on temporary transfers and relieving duties of not more than two months' duration. It has been brought to the notice of the Government that higher rates of road mileage have been claimed to certain instances for transfer journeys between places connected by rail.

As the Note of 6 to Rule 31 Part II K.S.R. occurs in the chapter relating to mileage allowance for journeys by road, the above note should be deemed to apply only to journeys performed by road. It is also clarified that "the nature of conveyance" referred to in the Note is intended to differentiate between 'Public Conveyance' and 'Special conveyance' and not between different modes of journeys, such as journey by road or journey by rail. Note 6 to Rule 31 therefore allows higher mileage only for journeys on transfer between places not connected by rail.

Government also wish to clarify that rule 66, Part II, K.S.R does not permit an officer to draw road mileage for journeys on transfer performed to between places connected by rail as the term 'Mileage allowance' as defined in rule 12, Part II, K.S.R. relates not to road mileage alone.

(By order of the Governor)

P. G. MURALEEDHARAN,
Under Secretary.
