Sub:- Certificate as final bills.

Ref: H-6083/67 dt.15/21-3-68

-----

The certificate required by the Accountant General is in respect of contracts in respect of which there is a condition in the agreement that for all logs selling at rates less than the Kalavilla, the kalavils payable to the contractor will be limited to the sale price. As such, in respect of contracts for which there is such a condition in the agreement, it is irregular to make final payment for logs which have not been sold. In such cases only part payments to the extent allow sale as per the terms of the agreement can alone be paid and the balance being paid after disposal of the logs concerned. Whenever the balance of the working charges in respect of a particular number of sold logs is released to the contractors or when payments are made after sale of the logs there cannot be any difficulty in furnishing the certificate required by the Accountant General. This does not seem that final payment can be made only after complete disposal of the logs included in the contract.
