Ref:- Your letter No.P5 -52687/75 dated 24. 2.1977.

With reference to your letter cited, I am to point out that since the collection work for both the seeds are said to be similar it is not clear why a deviation in the rates for engaging the Mazdoors in this case is to be adopted. I am therefore to request you to adopt the same principle laid under item No.40 of the schedule of rates in the present case also.
