

Office of the Conservator of Forests,
Central Circle, Trichur.

Copy of Ref. No. 414/73 dated 13.3.1975 from the Conservator of Forests, Industrial Plantation
Circle, Perumbavoor addressed to the Chief Conservator of Forests, Trivandrum

Sub:- Schedule rate – Government notification No.7899/E1/73/LBR, dated 1.4.1974.

Ref :- Chief Conservator's ref. No. P3-41292/74 dated 16.10.74.

With reference to the above circular, I have also to submit the following. The rate of Rs. 0.58, 0.63 and 0.70 provided in the Government notification for the work of transporting 100 seedlings in Polythene bags is over a lead of 50 metres only. The lead noted as 500 metres in the Government notification and also in the Minimum wages report work study report is a mistake. This can be seen from the original work study dated 7.11.1969. Where it is also stated that 20 % increase in rates will have to be given for every extra lead of 50 metre.

This clarification has been given to some Divl. Forest Officers in individual cases; but has not been generally made known. This error also may be rectified and communicated to all officers.

Yours faithfully,
Sd
Conservator of Forests

Copy to all Conservator of Forests & Divl. Forest officers.

Endt. On PC.7181/74 dated 5.4.75.
