

Copy of circular No.51/75 on CI-52756/75 dt.2-10-75 from the chief conservator of forests to all sub-officers.

Sub:- Marking of trees in nature teak plantations reg.

It is brought to the notice of the under signed that volume table prepared by Sri N.R.Nair is applied for the purpose of estimating the yield of teak trees in teak plantations. it is matter of common knowledge that the volume table method should not be made use of for take trees grown in plantations as it relates to only trees natural forests say assessments of volume of trees in Teak plantations has already been done by applying volume table method the assessments of volume should be revised immediately before contractors who have taken up extraction works in such cases are allowed to proceed with their work. In future the assessment in such cases should be made according to the old method.

2. The receipt of the circular may be acknowledged.
