

Copy of letter No.VE3-6802/75 dt 6.11. 1976 from the Addl. Chief Conservator of Forests, Trivandrum to the Divl. Forest Officer, Nilambur

Sub:- Estimate for collection of thinned materials obtained from 1948 tank plantation old Auarambalam in Nilambur Gange.

Ref:- D.E.O. 113/76-77 for Re.13,000/-

It is seen that the sketch showing the dumping after where the thinned materials from the above plantations are proposed to be stacked is not drawn to scale and it does not, therefore, serve any purpose. In this connection, your attention is drawn to Chief Conservator of Forests Forester's circular No.16/76 dt 22. 2. 76 where in clear directions have been given to submit in sketch showing the relative position of the stacking site/sites with that of the plantation happened to the estimates. Unless the sketch drawn to scale it does not serve my purpose. You are requested to follow the instruction contained in the above circular scrupulously in future.

Yours Faithfully,

sd/-

for Addl.Chief Conservator of Forests

Copy to all conservator of Forests and Divl.Forest officers (Territorial and special Divisions) for information and abrid guidance. Sketches showing the location of stacking sites should be drawn to scale with side reference.
