ORDER D.DIS. 37214/66 (C1) DATED 23-3-1963

In G.O.(MS) 269/Agri. dated 3-5-1963 fixing the seignicrage rates for timber and in G.O.(Rt)1401/66/Agri. dated 30-5-1966 regarding the classification of short length logs, 125 cm. is adopted in the place of girth limit of 48” previously followed. For the purpose of valuation of tree growth, different girth limit has been taken as equivalent to the girth limit of 48” in different Divisions. It is considered necessary to have a uniform procedure in all the Divisions in this respect also.

It is therefore ordered that for the purpose of valuation of tree growth also, 125cm. should be taken as equivalent to 48” and this should be followed in all the Divisions for the purpose of future valuations.
