Sub:- Export of fire wood under the title billets

Ref:- Nil..

.....

The representatives of the Kerala State Small Industries Association have brought to my notice that soft wood under the category of billets is allowed to be exported to outside the State. Transport of certain species Soft Wood and fire wood to outside the State has already been restricted in order to protect the interest of industrial units established within the State. The transport of firewood under the cover of "billets" will adversely affect the interest of the industrial units in the State which use soft wood as raw material.

In the above circumstances it is hereby ordered that passes should not be issued for the export of firewood as billets.

The receipt of this circular should be acknowledged.
