

Office of the Conservator of Forests,
Central Circle, Trichur, Dt. 10-10-75.

Circular No.2/75

It has come to my notice that thondy timber of valuable species seized in cases from 1959 onwards are still held in stock in almost all divisions. Some of them might have even shown sign of deterioration. The reason for the delay in the disposal of these timber in more or less "want of Court Sanction". Unless some personal interest is taken to get Court sanction, emphasizing the urgent necessity for the disposal of these timber Government will stand to lose a good revenue. In order to avoid such contingency and unnecessary criticism from the P.A.C. the Divl. Forest Officers are directed to take urgent action to get sanction from the Court for the disposal of such thondy timber.

The receipt of this circular should be acknowledged.
