Sub :- Elephant dragging of thinned poles – decision taken in Chief Conservator’s Council dated 20-11-89 – reg.

The following decision taken in Chief Conservator’s Council held on 20-11-89 is communicated to all sub Officers for information and guidance.

“ It is practically difficult to drag teak poles of smaller sizes, viz, III, IV, V, classes by elephant. So manual labour may be engaged for dragging these poses. However, for dragging I & II classes poles elephants may be used wherever elephant are available.
