CIRCULAR NO. 18/67.

Execution of works not included in the Plan of Operations - proposals -- regarding.

In the course of a year several requests are being received from subordinate officers for sanction to execute some urgent works which are not included in the plan of operations. Many works which are very urgent and essential like maintenance works and other silvicultural works to be done in plantations, are among such works left out in the Plan of Operations. It has to be noted that when once the plan of operations is approved by the Chief Conservator of Forests the provision as per the approved plan of operations is proposed in the budget and the budget passed by the Legislature, sanction of Government has to be obtained for taking up a new work not included in the plan of operations. Due to the failure to include any work in the plan of operations, such works which normally could have been sanctioned by the Chief Conservator of Forests, have to be got sanctioned by Government necessitating a series of correspondences in all the departments concerned. Had the officers been diligent in the preparation of the plan of operations, much time and labour could have been saved in the work undertaken in the proper season. All the Officers concerned are therefore requested to bestow special attention in the matter of preparation of the Plan of operations. Any Officer who fails to make provision in the plan of operation for any work which normally could be foreseen, will be dealt with very seriously.
