

Abstract

Public Services – cleaners of Departmental Motor Vehicles –
Service during the period of repairs of Motor Vehicles-
Orders issued

.....

Public (Service D) department
G.O. (P) No. 483 **Dated 11th November 1963**

.....

ORDER

The question as to how the services of the cleaners of the departmental motor vehicles can be treated during the period of repairs of the motor vehicles has come up for consideration before the Government. After due consideration the Government direct that when a departmental Motor vehicle is sent for repairs to a workshop the cleaner attached to the vehicle will not be considered as on duty with effect from the date on which it is sent to the workshop. So he will have to be given some work either in the office to which he is attached or in any other Local Government Institution or office where his services can be utilized. However, if the vehicle as a whole is not taken to the workshop, as the repair required is only to a part of the vehicle, the cleaner will have to attend to the vehicle. In such cases as the cleaner will not have full time work the officer to whose office the vehicle is attached or any other controlling authority will utilize his spare time for some other suitable work. If the vehicle is condemned beyond repairs the junior most in the category will be established in such circumstances, if any, will be considered as and when such cases arise

By order etc.
Sd/- Joint Secretary

To
The Heads of departments.
