ORDER

In the Government Order read above sanction was accorded to supply the required quantity of III Class Rosewood to be Industries Department at the rates obtained in public auction subject top availability for distribution to bonfire applicants engaged in wood carving. There is no steady price for a particular class of rosewood logs. Price obtained for each log depends up on special Characteristic or special attention to export merchants and market fluctuations. So once a log is sold it may not be possible to exclude it from the auction or to supply it to Industries Department at the same rate if these logs are selected by them. To the rates to be sold in auction and then measured over to the Industries Department at the same rate obtained in auction which is impracticable. It will also up set the trend of sales and dealing with export merchants if all the logs which they have bid are not made available to them. Hence the Chief Conservator of Forests has suggested that schedule rate or average of previous three years auction sales whichever is higher may be made applicable in the case of supply of Rosewood to artisans. The above suggestion is approved.
