Read:- 1. G.O. (MS)257/64/AD dated 4-4-1964.

2. Letter No.A2-1131/69/dt.17-2-1969 from the Chief Conservator of Forests.

3. Letter No.D3-2378/70/Dt. 12-2-1970 from the Director of Harijan Welfare.

ORDER

In the Government order read above the quantity of wood to be supplied for each house of hill tribe was fixed as 53 cft. stock file 1970 of maruthy at Rs.0.75/- at a cost not exceeding Rs.54/- at seignior age rate. Here emphasis is given both to the quantity and amount which creates confusion as enhancement of seignior age may not synchronise with the amount. Hence the Chief Conservator of Forests has suggested the following proposals.

1. The quantity of timber allowed in 18-4-cft. of Jack wood and 24 cft. of Maruthy. This may be modified as 0.5 cum of Jack wood and 1.0 cum of maruthy and seignior age value at each time may be realized.

2. A minimum of 10% variation may be allowed, the excess seignior age value if any, to be remitted by the applicant.

3. Full seignior age value may be remitted in advance. This will dissuade the applicants to back out subsequently. The excess of deficit found on final measurement will be refunded or recovered as the case may be.

4. Firewood obtainable from such trees may be measured over to the applicant at seignior age rate. The above proposals are sanctioned. The suggestion of the Chief Conservator of Forests that check measurement by the Divisional Forest Officer need not be insisted as the quantity to be measured is too little is not acceptable.
