

No.w4-33503/80.

Office of the chief Engineer,
Irrigation , Trivandrum,
Dated 22-12-1980.

CIRCULAR

It is noticed that superintending Engineers are inviting tenders for works before getting sanction of competent authority. This practice is irregular and may create difficulties. When Administrative sanction to be received from government is delayed the department will not be able to issue selection notice within the firm period of the tender. This may lead to the contractor not being willing to execute the work when selection notice is finally issued. To avoid such a contingency the superintending Engineers are informed that in future tenders should be invited only after receiving Administrative and Technical sanction from the competent authority.
