O R D E R

In the G.O. read as first paper above the ground rent to be realised for sold logs left unremoved beyond grace period in depots was fixed. The Resource mobilisation policy committee September 1974 had recommended that the rate of ground rent charged should be for the quantity of wood and not for the number of logs and that Rs.2/- per cum. may be charged for the first month in respect of all species of logs not removed after grace period double that in the case of the 2nd month, three times that in the case of the third month and so on. The Chief Conservator of Forests is to view that there is no objection in accepting the recommendation of the committee that the ground rent should be based on the quantity of timber and not on the number of logs.

Government are therefore pleased to order that an amount of Rs.2/- per cum. will be charged for the first month in respect of all species of logs left unremoved after grace period. The rate will be double in the 2nd month, three times in the case of the third month and so on. After 6 months from the expiry of the grace period the logs left behind will be declared as the property of Government.
