PROCEEDINGS OF THE CHIEF CONSERVATOR OF FORESTS,
 TELAVAKURUM

Sub:- Grazing of private elephants in
 Reserve Forests -

Ref:- Report No. GG-11041/67 dated 16-12-1967
 from the Conservator of Forests, Quilon.

ORDER ON G4 (K.Ds.) 41535/67 Dt. 3-1-1968.

The Conservator of Forests, Quilon has reported in his letter cited that the practice in vogue is, to adjust grazing fees of elephants from contractor's dues in respect of supply coupes and to realize grazing fee calculated at 1 grazing fee for 2 cum. of timber collected by sale coupe contractors. In both cases the grazing fee is not collected before hand. But orders have been issued from this office proceedings No. G4-26248/67 (K. Dia.) dated 7-11-1967 that elephants engaged for work in coupes of Government forests may be allowed to graze in the forests after collecting the fees prescribed therefor. Therefore the Conservator of Forests, Quilon has suggested to amend the last sentence of this office proceedings dated 7-11-1967 as that the grazing fee of elephants engaged by forest contractors as per agreement conditions can be realized from the working charges payable to the supply contractors or from the residual growth removal contractors based on the quantity collected.

In view of the suggestion made by the Conservator of Forests it is ordered to amend the last sentence of this office proceedings as suggested by the Conservator of Forests in his letter cited.
